

Pegasus Part No. 3067 Alloy Steel Rod Ends, Metric (Aurora AW-M and AG-M Series)

These high-strength rod end bearings provide the ultimate in strength, durability, and safety. The ball, race, and housing are all made with heat-treated alloy steels. The ball is hard chrome plated, and the race has a PTFE fabric lining bonded

to it. These bearings are very resistant to loosening, even when subjected to the pounding they receive under racing conditions. Female threaded shanks only. Aurora AW-M-T (right hand) and AG-M-T (left hand) series.

X Groove indicates metric threads.

Body: Alloy steel, heat treated, protective coated for corrosion resistance.

Race: Alloy steel, heat treated, protective coated for corrosion resistance.

Ball: Alloy steel, heat treated and hard chrome plated.

Lubrication: Self-lubricating PTFE liner.
